

Germany Trade and Invest is the new foreign trade and inward investment agency of the Federal Republic of Germany. Formed following the merger of the German Office for Foreign Trade and Invest in Germany GmbH, Germany Trade and Invest officially came into being on January 1, 2009. Germany Trade and Invest's mission is to promote Germany as a location for industrial and technological investments and to identify investors for the German market.

The organization advises and supports foreign companies seeking to expand into the German market, and assists German companies looking to enter foreign markets. Germany Trade and Invest provides comprehensive and client-oriented economic and industry data as well as information about calls for proposals in foreign countries, investment and development projects, and legal and customs authorities. The promotion of economic activity in Germany's new federal states, including Berlin, also forms an integral part of the agency's external trade and business location marketing remit.

Germany Trade and Invest can count upon an international network of industry analysts who perform on-site research into foreign markets and supports foreign businesses looking to establish a company in Germany. Our international team of experts works closely together with the German Chamber Network. This growing partnership allows German exporters and potential foreign investors alike to benefit from a centralized first point of contact overseas, with client-specific information and consultancy services all provided under one roof.
